iRoom's iDock

In-wall iPad™ Docking Solutions

The world's best in-wall docking solution

iRoom offers stylish and sophisticated in-wall docking solutions for any interior for the iPad™ and iPad mini™. It turns your iPad™ or iPad mini™ into an in-wall control, audio and video streaming or digital signage device. The unique motorized opening and closing system of iRoom's iDock offers the possibility to still utilize the full portable functionality of the iPad™. With unique features like audio output, iPad™ secure functionality and docking status notification iRoom offers a variety of iDocks that are highly suitable for any residential and commercial application.

Motorized docking and release

Whether you're using your iPad™ to sit back and read the news or simply store it in the wall you will enjoy the beautiful design and smooth action that has made iRoom's iDock a must have for iPad™ owners and integrators.

Full installation flexibility

Enjoy your in-wall iPad™ the way that best suits the space with landscape and portrait orientation available. All models use the same installation box and are fully compatible with all iPad™ generations.

Bring back the jukebox

The integrated audio outputs of the iDock make it possible to connect the iPad™ to every sound system allowing the iPad™ to be used as an audio source. Select and play songs from the docked iPad™ like a modern-day version of the old fashioned jukebox!

100%

Always charged and safely stored

When you eject your iPad™, you'll know it's always ready to go. When inserted into the iDock you can continue to control audio and video equipment or smart home applications.

„intelligente Technik“ in all ways

Docking status notification, automatic closing – the iRoom iDock has it all. Thanks to the modular system you can define which of the technical and security features you want to use.

Customise your ideas

To perfectly fit the iPad™, the standard colors of iRooms's iDock are black and white. Faceplates are available in anodized Aluminium and Glass wich are magnetic mounted. To meet the most demanding design requirements, iRoom's iDock can be made to order in almost any colour.
