Important Information regarding diversion (optional feature)

- The Intercom system can work as a stand alone intercom with no requirement for Wi-Fi connection and Mobile App service.

- Proceeding with the optional diverson feature is accepting Dorani diversions disclaimer and terms and conditions available at dorani.com.au

- Speeds greater than 1.2 Mbps upload are recommended for quality and reliability at the monitor

- Many ISP providers restrict some activity within router/modems; an IT specialist may be required to unlock these restrictions. This may fall outside a standard installation.

- Dorani bears no responsibility for connection problems based on 3rd party equipment.
